THE CONSULT

7-Sector Data Source Master Plan

Business Market & Data Intelligence for Marketing and Business Development

Scope Business • Finance • Construction • Real Estate • Technology • Logistics • Energy
Operating model Market → Signal → Company → Need → Opportunity → POC → Outreach → Result
Primary design principle Preserve the existing construction permit system and add a cross-sector intelligence layer above it.

Prepared October 2026

1. Workbook Architecture

The permit workbook should remain the Construction engine inside a broader Enterprise Opportunity Intelligence System. Do not force unrelated sector signals into PERMIT_LEADS. Add a cross-sector layer above the existing structure.

Workbook tab	Recommendation	Purpose
DASHBOARD	Extend	Keep permit KPIs; add enterprise-signal funnel and 7-sector metrics
README	Extend	Document the enterprise intelligence workflow
SOURCES	Keep	Preserve as construction/permit-source registry
INTEL_SOURCES	NEW	Master registry for all 55 sources
PERMIT_LEADS	Keep	Construction-specific project/permit intelligence
SIGNALS	NEW	Cross-sector trigger-event database
OPPORTUNITIES	NEW	Qualified consulting opportunity records
FIRMS	Extend	Enterprise/account master
CONTACTS	Extend	POC/decision-maker master
CALL_LOG	Extend	Calls plus signal/opportunity reference
PARTNERS	Keep	Construction placement ecosystem
PLACEMENTS	Keep	Construction placement monetization
SCORING	Keep	Current construction permit score
EOS_SCORING	NEW	Cross-sector Enterprise Opportunity Score
LISTS	Extend	Sectors, triggers, source tiers, priorities, POC functions

Critical distinction: Permit Lead Score answers “How attractive is this construction placement opportunity?” EOS answers “How likely is this organization to have an immediate consulting problem THE CONSULT can monetize?”

2. 7-Sector Data Source Master Plan

Sector codes: BUS Business · FIN Finance · CON Construction · RE Real Estate · TECH Technology · LOG Logistics · ENE Energy. Automation: H = API/bulk/structured feed; M = export/searchable portal; L = mostly manual. POC usefulness: H = source often helps identify owner/company/contact directly; M = identifies company but usually needs enrichment; L = primarily market/context intelligence.

A. Construction + Real Estate Intelligence

ID	Source	Sector	Exact trigger	Fields available	Cost	Search freq.	Geography	Auto	POC	Workbook
INT-001	TDLR TABS Project Search	CON, RE, ENE, TECH	New project registration, renovation, facility, data center	Project #; facility; owner; design firm; city/county; dates; work type; cost	Free	Daily	Texas	M/H	H	SOURCES + PERMIT_LEADS + SIGNALS
INT-002	DallasNow	CON, RE, BUS	Permit/application; facility expansion	Application/permit; status; address; applicant; planning/building records	Free	Daily	Dallas	M	H	SOURCES → PERMIT_LEADS
INT-003	Dallas Commercial Permit Activity	CON, RE	Commercial construction volume; new projects	Commercial permit activity; dates; locations; trends	Free	2x weekly	Dallas	M	M	SOURCES / market dashboard
INT-004	Fort Worth Development Services Permits	CON, RE, ENE, TECH	Permit/application; new facility	Permit; status; project; address; permit type; CO	Free	Daily	Fort Worth	M	H	SOURCES → PERMIT_LEADS
INT-005	Fort Worth Permit GIS Feature Service	CON, RE	Issued permits; geographic development clusters	GIS geometry; permit attributes; JSON/query capability	Free	Daily	Fort Worth	H	M	Automated PERMIT_LEADS ingestion
INT-006	Arlington Permit Applications	CON, RE, BUS	Pre-issuance construction/application	Status; in-date; work description; address; valuation; use; business; zoning	Free	Daily	Arlington	H	H	PERMIT_LEADS
INT-007	Arlington Issued Permits	CON, RE	Permit issued; project moving	Issue/final date; type; work description; address; valuation; business; GIS ID	Free	Daily	Arlington	H	H	PERMIT_LEADS
INT-008	Plano eTRAKiT	CON, RE	Application; permit; project; contractor	Permit/project; properties; contractors; inspections	Free	2x weekly	Plano	M	H	SOURCES → PERMIT_LEADS
INT-009	Frisco Active Building Permits GIS	CON, RE	Active construction	Address; project type; GIS/location; permit activity	Free	Daily	Frisco	H	M	PERMIT_LEADS
INT-010	Frisco Development Reports	CON, RE, BUS	Project submitted before construction; permit trends	Project submissions; commercial permits; COs; development activity	Free	Weekly	Frisco	M	M	SIGNALS + PERMIT_LEADS
INT-011	McKinney Development Reports	CON, RE, BUS	New non-residential development	Development activity; spreadsheets; projects; permits	Free	Weekly	McKinney	H	M	SIGNALS
INT-012	Denton eTRAKiT	CON, RE	Permit; development project	Permits; projects; contractors; properties; status	Free	2x weekly	Denton	M	H	PERMIT_LEADS
INT-013	Denton Development Project Information	CON, RE	Rezoning; new proposed development	Project number; hearings; maps; development application activity	Free	Weekly	Denton	M	M	SIGNALS
INT-014	Carrollton CityView Permit Search	CON, RE	Permit/application	Application #; address; parcel; permit contact	Free	Weekly	Carrollton	M	H	PERMIT_LEADS
INT-015	Dallas CAD Data Products	RE, FIN, BUS	Ownership/value change; portfolio mapping	Owner; parcel; values; property type; appraisal history	Free	Weekly/monthly	Dallas County	H	M	FIRMS + SIGNALS
INT-016	Tarrant Appraisal District	RE, FIN	Property ownership/value change	Owner; address; value; legal description; property class	Free	Weekly	Tarrant	M/H	M	FIRMS + SIGNALS
INT-017	Collin CAD Open Data	RE, FIN	Ownership/property portfolio	Appraisal data; ownership; GIS; property/value data	Free	Weekly	Collin	H	M	FIRMS + SIGNALS
INT-018	Denton CAD Data Downloads	RE, FIN	Ownership/value/property change	Appraisal CSV; GIS; parcels; owners; values	Free	Weekly	Denton	H	M	FIRMS + SIGNALS

ID	Source	Sector	Exact trigger	Fields available	Cost	Search freq.	Geography	Auto	POC	Workbook
INT-019	Dallas County Official Records	RE, FIN	Acquisition; deed; refinance; lien	Grantor/grantee; doc type; document #; recorded date; image	Search free	Weekly	Dallas County	M	M	SIGNALS
INT-020	Tarrant County Official Records	RE, FIN	Acquisition; refinance; lien	Grantor/grantee; record type; date; instrument	Search free	Weekly	Tarrant	M	M	SIGNALS
INT-021	Collin County Official Records	RE, FIN	Acquisition; refinance; deed of trust	Grantor/grantee; doc type; date; document	Search free	Weekly	Collin	M	M	SIGNALS
INT-022	Denton County Official Records	RE, FIN	Acquisition; refinance; lien	Grantor/grantee; document; date; OCR/full text	Search free	Weekly	Denton	M	M	SIGNALS

B. Business + Finance + Technology + Government-Contract Intelligence

ID	Source	Sector	Exact trigger	Fields available	Cost	Search freq.	Geography	Auto	POC	Workbook
INT-023	SAM.gov Contract Awards	BUS, TECH, LOG, CON	Government contract award; RFP won	Awardee; UEI/CAGE; NAICS; PSC; agency; PIID; place; signed date	Free account	Daily	U.S.; filter TX	H/API	M	SIGNALS → OPPORTUNITIES
INT-024	USAspending Advanced Search	BUS, TECH, LOG, CON	Contract/grant/subaward growth	Recipient; award amount; potential value; period; NAICS; PSC; geography	Free	Daily/weekly	U.S.	H	M	SIGNALS
INT-025	SAM.gov Contract Opportunities	BUS, TECH, CON, LOG	Major RFP; pending growth opportunity	Solicitation; NAICS; agency; due dates; place; notices	Free	Daily	U.S.	H/API	M	Precursor SIGNALS
INT-026	Texas Electronic State Business Daily	BUS, TECH, CON, LOG	Texas solicitation/award	Agency; solicitation; NIGP code; close date; award notice	Free	Daily	Texas	M	M	SIGNALS
INT-027	Texas DIR Contracts & Vendors	TECH, BUS	IT contract/vendor award	Vendor; contract; product/service; contract docs/status	Free	Weekly	Texas/public sector	M/H	H	SIGNALS + FIRMS
INT-028	Texas DIR Contracting Initiatives	TECH, BUS	Planned RFI/RFP; technology procurement	Procurement phase; type; POC; solicitation timing	Free	Weekly	Texas	M	H	Precursor SIGNALS
INT-029	Texas Local Development Agreement Database	BUS, RE, FIN, CON	New facility; expansion; capital commitment	Company/developer; jurisdiction; development agreement; incentives	Free	Weekly	Texas	M/H	M	SIGNALS
INT-030	Texas Recent Project Announcements	All 7	Facility; HQ; manufacturing; tech; energy expansion	Company; project; investment; jobs; location; incentive	Free	Daily/weekly	Texas	M	M	High-value SIGNALS
INT-031	Texas WARN Notices	BUS, FIN	Layoff; closure; distress/restructuring	Employer; location; notice date; layoff/closure; employees affected	Free	Daily/weekly	Texas	M	M	Distress SIGNALS
INT-032	SEC EDGAR Search Filings	BUS, FIN, TECH, ENE, LOG	Acquisition; restructuring; revenue change; liquidity; debt; executive change	Company; form; filing date; full filing; financial statements	Free	Daily	U.S.; filter TX	H/API	H	SIGNALS + FIRMS
INT-033	SEC EDGAR RSS & Latest Filings	BUS, FIN, TECH, ENE	Near-real-time event monitoring	Company; CIK; form; filing date; accession #	Free	Intraday	U.S.	H	H	Automated SIGNALS
INT-034	SEC EDGAR Full-Text Search	BUS, FIN	Revenue decline; supply-chain issue; material weakness; strategic alternatives	Search terms across filings; company; filing category/date	Free	Daily/weekly	U.S.	H	M	SIGNALS
INT-035	SEC Form D / EDGAR	FIN, TECH, BUS	New private funding/capital raise	Issuer; filing date; offering information; industry/entity details	Free	Daily	U.S.	H	H	SIGNALS
INT-036	SEC 8-K Executive-Change Monitoring	BUS, FIN, TECH	CFO/COO/CEO appointment/departure	Officer name/title; departure/appointment date; company	Free	Daily	Public companies	H	H	SIGNALS + CONTACTS
INT-037	Texas SOSPortal / Business Services	BUS, FIN, RE	Formation; merger; conversion; legal entity change	Legal entity filings; mergers/conversions; entity records	Fees may apply	Weekly	Texas	L/M	M/H	FIRMS / verification
INT-038	Texas Comptroller Taxable Entity Search	All	Entity verification/status change	Legal name; taxpayer/entity status; registration context	Free	As needed	Texas	M	M	FIRMS verification
INT-039	Texas CMBL/VetHUB Directory Resources	BUS, CON, TECH, LOG	Government-capable vendor/procurement footprint	Vendor; products/services; procurement classification	Free	Monthly	Texas	M	H	FIRMS enrichment
INT-040	Texas ESBD Grant Opportunities	BUS, TECH, ENE	Grant/funding opportunity	Agency; purpose; value/context; contact information	Free	Weekly	Texas	M	H	Funding SIGNALS

C. Logistics Intelligence

ID	Source	Sector	Exact trigger	Fields available	Cost	Search freq.	Geography	Auto	POC	Workbook
INT-041	FMCSA Company Census File	LOG	Fleet expansion; new carrier; rapid growth	USDOT; company; operations; equipment; drivers; status	Free	Weekly snapshots	U.S.; filter TX	H	H	SIGNALS + FIRMS
INT-042	FMCSA SAFER Company Snapshot	LOG	Fleet size; safety deterioration; compliance	DOT/MC; name; size; commodities; inspections; crashes; safety	Free	Weekly	U.S.	M	H	FIRMS validation
INT-043	FMCSA Licensing & Insurance Carrier Search	LOG	New DOT authority; pending authority; revocation/insurance issue	USDOT; docket; legal/DBA; authority; application; insurance	Free	Daily	U.S.	M	H	SIGNALS
INT-044	FMCSA Register	LOG	Authority granted; transfer; revocation	Date; certificate/permit/license decisions; carrier	Free	Daily	U.S.	M/H	M	SIGNALS
INT-045	FMCSA Open Data Program	LOG	Carrier growth + safety/compliance risk	Regulated entities; authority; SMS; new entrant data	Free	Weekly/monthly	U.S.	H	M	Batch SIGNALS
INT-046	TxDOT STARS II	LOG	Market-level logistics growth	Traffic counts; vehicle classification; corridor activity	Free	Monthly/quarterly	Texas	M/H	L	Market intelligence
INT-047	BTS Freight Analysis Framework 6	LOG	Freight-lane/commodity growth	Origin/destination; mode; commodity; tonnage; value	Free	Quarterly/annual	U.S./metro/state	H	L	Market intelligence
INT-048	Port Houston HSC Monthly Report	LOG	Freight volume; import-export pressure	TEUs; tonnage; vessel/barge traffic; cargo category	Free	Monthly	Houston/Texas	M	L	Logistics market dashboard

D. Energy + Large-Load / Data-Center Intelligence

ID	Source	Sector	Exact trigger	Fields available	Cost	Search freq.	Geography	Auto	POC	Workbook
INT-049	RRC Drilling Permit Data Downloads	ENE, CON, LOG	New/pending drilling project	Permit #; issued/amended date; lease; location; lat/long; spud	Free	2x daily/nightly	Texas	H	M	SIGNALS
INT-050	RRC Drilling Permit Visualization	ENE	Geographic drilling/project activity	Permit activity; geography	Free	Weekly	Texas	M	L/M	Market intelligence
INT-051	ERCOT Large Load Integration	ENE, TECH, CON, RE	Data center / >=75 MW large-load project	Large-load process; TSP/DSP; batch information/forms	Free	Daily/weekly	ERCOT Texas	M/H	M	High-value SIGNALS
INT-052	ERCOT Market Notices	ENE, TECH	Large-load/interconnection/grid change	Notice date; subject; affected entities/process	Free	Daily	ERCOT Texas	M/H	M	SIGNALS
INT-053	PUCT Interchange / Filings	ENE, TECH, CON	Utility project; transmission; generation; regulatory filing	Docket/control #; utility; filing party; case style; filing date	Free	Daily/weekly	Texas	M	H	SIGNALS + CONTACTS
INT-054	TCEQ Central Registry	ENE, CON, LOG, BUS	New/expanded regulated facility	Company; facility; address; phone; owner/operator identifiers	Free	Weekly	Texas	M	H	SIGNALS + FIRMS
INT-055	EIA Electricity Data	ENE, TECH	Market demand/capacity/pricing trend	Generation; capacity; customers; sales; price; utility	Free	Monthly	Texas/U.S.	H	L	Market dashboard

3. INTEL_SOURCES Master Registry

Use one master source registry across all seven sectors. This makes source performance measurable over time.

Field	Purpose / Example
Source ID	INT-001
Source Name	TDLR TABS
Source Family	Permits / Contracts / Capital / Property / Logistics / Energy
Primary Sector	Construction
Secondary Sectors	Real Estate; Energy; Technology
Geography	Texas
Geography Level	State / County / City / Federal
Trigger Types	New Construction; New Facility
URL	Plain-text source URL
Source Tier	A / B / C / D
Cost	Free / Free Account / Paid / Freemium
Authentication	None / Login / API Key
Data Format	Portal / CSV / JSON / API / RSS / PDF
Fields Available	Summarized list
Update Frequency	Actual source refresh
THE CONSULT Check Frequency	Operating cadence
Automation Potential	High / Medium / Low
API / Feed Available	Yes / No
POC Usefulness	High / Medium / Low
Earliest Signal Stage	Proposed / Application / Award / Filing / etc.
Signal Strength	1–5
Last Checked	Date
Next Check Due	Formula
Status	Current / Due / Overdue / Broken
Signals Captured	Count
Qualified Opportunities	Count

Field	Purpose / Example
Conversations	Count
Wins	Count
Revenue Sourced	$
Notes	Operating instructions

4. New SIGNALS Sheet

Identification	Signal ID • Date Found • Source ID • Sector • Secondary Sector • Trigger Type • Trigger Date • Signal Status
Entity	Firm ID • Company • Website • Industry • NAICS • City • County • State
Event	Event / Project ID • Event / Project Name • Description • Project / Transaction Value • Jobs Created / Affected • Facility / Property • Event Stage
Evidence	Primary Source URL • Secondary Source URL • Source Tier • Evidence Confidence • Evidence Summary
THE CONSULT Analysis	Likely Need • Likely Execution Problem • Primary Service • Secondary Service • Opportunity Hypothesis • Recommended Entry Offer
Scoring	Trigger Pts • Need/Pain Pts • Capacity Pts • Service Fit Pts • Access Pts • EOS • Priority
POC	Ideal POC Function • Primary Contact ID • Backup Contact ID • POC Status
Pursuit	Outreach Angle • Assigned To • Outreach Status • Last Touch • Next Step • Next Step Date • Action Status • Notes

Design rule: one signal can support multiple service hypotheses, but it should remain one source-backed event record.

5. Direct Mapping from PERMIT_LEADS

Existing PERMIT_LEADS field	Enterprise equivalent
Lead ID	Signal ID
Date Found	Date Found
Source ID	Source ID
Jurisdiction / County	Geography
Record Type	Trigger Type
Permit / App #	Event ID
Permit Type	Event Type
Work Class	Event Classification
Status	Event Status
Stage	Signal/Event Stage
Applied/Issued Date	Trigger/Event Date
Address / City	Location
Raw Description	Evidence Summary
Valuation	Project/Transaction Value
Owner / Developer	Company
Owner Firm ID	Firm ID
Architect / GC	Related Party
GC Status	Construction-specific execution signal
Lead Score	Keep as Permit Score
Priority	Permit Priority
Opportunity Type	THE CONSULT Service / Opportunity
Lane	Pursuit Lane
Call First	Ideal POC / POC Priority
Call Script	Outreach Angle
Assigned To	Assigned To
Call Status	Outreach Status
Last Call	Last Touch

Existing PERMIT_LEADS field	Enterprise equivalent
Next Step	Next Step
Next Step Date	Next Step Date
Action Status	Action Status
Notes	Notes

6. Extend FIRMS and CONTACTS

FIRMS - keep current construction fields and add:

Primary Sector • Secondary Sectors • Subsector • NAICS • HQ City • HQ State • Revenue Band • Employee Band • Ownership Type • Parent Company • Website • Active Signals • Highest EOS • Primary Opportunity ID • Last Signal Date • Account Priority • PMSuite ID

CONTACTS - add:

Function • LinkedIn / Public Profile • Contact Source • Contact Source URL • Email Verification • POC Tier • Associated Signal ID • Opportunity ID • Reason This POC Owns Problem

The final field should answer why this executive is the correct outcome owner. Example: “COO - likely owner of delivery capacity created by $48M federal award.”

7. Enterprise Opportunity Score (EOS)

Factor	Max Points
Trigger Strength	30
Demonstrated Need / Pain	25
Economic Capacity	20
THE CONSULT Service Fit	15
POC Accessibility	10
TOTAL	100

EOS	Classification	Action
90-100	A1 - Immediate	Executive outreach now
75-89	A2 - Strategic	Highly personalized pursuit
65-74	B1 - Qualified	Normal qualified outreach
50-64	B2 - Monitor	Nurture/research
<50	C - Database	No enrichment

POC/email enrichment begins at EOS 65.

8. Source-Tier Discipline

Tier	Evidence	Operating rule
A	Government / regulator / court / official financial filing	Can directly support qualification
B	Company press release / investor relations / corporate website	Can directly support qualification
C	Credible trade or business publication	Validate with second source when material
D	Aggregator / social post / review site / unverified source	Discovery only

Recommended gate: require A/B evidence or two independent C sources before A1 outreach.

9. Trigger-to-Source Hierarchy

Trigger	Primary sourcing hierarchy
New construction permit	TDLR + municipal applications
Major property acquisition	County Clerk → CAD
Government contract award	SAM → USAspending → ESBD
Large RFP won	SAM awards / ESBD awards
Acquisition announced	EDGAR → company filing
New funding	Form D
New facility	TDLR + local permit + Texas project announcements
20+ jobs	Texas project announcements + careers secondary research
CFO/COO hired	8-K + company announcement
CFO/COO departure	8-K + company announcement
Revenue declining	10-Q / 10-K
Rapid revenue growth	10-Q / 10-K + expansion/hiring
Lawsuit / compliance	Regulatory/court source → secondary intelligence
Negative reviews	Secondary only; never primary trigger
Supply-chain disruption	10-Q / 10-K / 8-K + company disclosure
Fleet expansion	FMCSA Census snapshots
New DOT authority	FMCSA Licensing & Insurance + Register
Data center / energy project	ERCOT + TDLR + PUCT + TCEQ

Trigger	Primary sourcing hierarchy
Commercial property vacancy	Property/broker data; weaker free signal
Refinance / maturity	County Clerk deeds-of-trust + SEC debt disclosures
Owner nearing exit	NO RELIABLE DIRECT PUBLIC SOURCE - infer from succession/M&A;/ownership signals

10. Source Deployment Priority

Do not try to operate all 55 sources manually. Deploy in layers.

Tier	Purpose	Sources / routines
Tier 1 - Monitor now	High-value opportunity creation	TDLR TABS; DallasNow; Fort Worth permit GIS; Arlington permit applications; Dallas/Collin/Tarrant/Denton deed-record routine; SAM Contract Awards; Texas ESBD; Texas Recent Project Announcements; SEC EDGAR/RSS; FMCSA Census + Licensing & Insurance; RRC permit feeds; ERCOT Large Load
Tier 2 - Validation / enrichment	Validate company, owner, status, POC	CADs; SAFER; SOSPortal; Taxable Entity Search; TCEQ; PUCT; DIR; Local Development Agreements
Tier 3 - Market intelligence	Decide where to allocate BD attention	TxDOT STARS; BTS FAF; EIA; Port Houston

11. Daily Operating Flow

INTEL_SOURCES → Source checked / feed pulled → SIGNALS → Deduplicate by company + trigger + event → Quick company research → EOS → EOS ≥ 65? → FIRMS → Identify outcome owner → CONTACTS → OPPORTUNITIES → Outreach angle → CALL_LOG / PMSuite → Conversation → Diagnostic / Proposal / Project

Construction can branch into two paths from the same signal: (1) permit placement via PERMIT_LEADS, and (2) consulting opportunity via SIGNALS. A single $50M project can therefore create both a placement opportunity and a development PMO / finance / execution-advisory opportunity.

12. Key Implementation Decision

Build one source registry, not seven separate research databases. Each source can serve multiple practices. ERCOT large-load intelligence can feed Energy, Technology, Construction, Real Estate and Finance. Federal contract awards can feed Business, Finance, Technology and Logistics. Property acquisition plus permit activity can feed Real Estate, Construction, Finance and Business. This is what makes THE CONSULT's seven-sector model economically viable: one piece of intelligence can create multiple service hypotheses.

End state: the database stops being a list of prospects and becomes a proprietary map of enterprise change across Texas.
